FARMING

STRAW BLOWERS PAP ST - PAP OR

FOR ROND OR SQUARE BALES

STANDARD EQUIPMENT

(mulching up to 15m)

- Turbine without shredder
- Driving box 1 speed 540 rpm with integrated freewheel
- Hydraulic chute with mechanical deflector
- Double belt hydraulic conveyor for straw recycle
- Protective deflector for round bales
- Adapted rear door (2700mm) with chain and posts
- Flange 16 sections
- Hydraulic distributor with flow regulator.
- PTO driving
- Recommended oil flow: 33L/min

> The flange cuts the straw and is adapted for long straw and fiber products without shredding them

STRAW BLOWERS FOR TELEHANDLER

ADAPTABLE FOR TELEHANDLER

- · 2 speed gearbox (270 and 540 rpm)
- Turbine with bolted blades
- Chain conveyor belt Ø 10.
- · Indicator and belt regulator with reverse
- · Hydraulic rear door.
- Spreading from 10 to 15m
- Compatible with round and square bales with the optional door extension
- Shredder with hydraulic drive sections.

Mounting on telehandler

- · Overdimensioned hydraulic motor.
- · Reinforced link chain with protection
- · High resistance driving cylinders
- · Adaptation parts with automatic hooking.
- Electric control of all the functionalities with plug-in socket
- 1 hose 5/8 for main supply (turbine + functionalities)
- 1 return pipe

IMPORTANT:

Requirements for telehandler mounting:

- Hydraulic flat face socket Ø 3/4 at the boom for main supply (delivered with the machine)
- A male flat face socket 3/4 for free return to the tank (delivered with the machine)
- a 12V socket, 3 pins.
- Minimum hydraulic capacity of the truck:
- 80 l/min continuously (at the top of the boom), $\,$ max 140L/min $\,$
- 180 bar continuously (at the top of the boom).

A perfect using of the machine is guarantee only:

- -if the installation has been made according to the instructions above $% \label{eq:condition}%$
- if the telehandler meets the requirements

MOUNTED OR TRAILED STRAW BLOWERS- 2,2M³ P280

P280 with side or swivel chute electric control

- Shredder with hydraulic drive sections.
- · Gearbox 2 speeds (270 and 540 rpm).
- Turbine with bolted blades
- Chain conveyor belt Ø 10 mm.
- · Removable HLE tubes.
- · Indicator and belt regulator with reverse
- · Hydraulic rear door.
- Spreading from 10 to 15m (for GTE) and from 15 to 18m (GLE)
- Compatible with round and square bales with the optional door extension
- PTO shaft with friction security and freewheel.
- · Semi-automatic coupling (on mounted model).
- Side chute for distribution (standard for GLE).
- · 300° mulching chute (standard for GTE).
- Tractor pressure: 180 bars
- · Directional and lateral chute

DREAL APPROVAL

Mounted version: Maximum weight of 800 kg

- Axle with two cylinders for lifting the body.
- Drawbar coupling with articulated bar.
- Wheels: 10.0/75 x 15.3

Trailed version: Maximum weight of 450 Kg

- $\boldsymbol{\cdot}$ fixed axle, door extension for lifting to the ground
- · Drawbar coupling with articulated bar.
- Wheels: 10.0/75 x 15.3

Lateral distribution only

RD53BCL

RD530 SHORT STRANDS

Electric control

The RD530 Short Strand Trailer - Dispenser is specially designed to dispense and grind dry straw.

- It makes it possible to produce bedding for poultry and cattle breeding.
- · Main electric control at the front + Dual rear control.
- · Gearbox 2 speeds (270 and 540 rpm).
- Chain conveyor belt Ø 12 mm / strips in HLE tubes can be dismantled.
- Regulator of progress of the conveyor belt with reverse movement.
- Hydraulic door with 2 lifting arms DA for loading the bales.
- Fixed axle / Rear lights / Adjustable boom with articulated towbar.
- Moving conveyor driven by hydraulic motor.
- Double bottom cleaning hatch.
- PTO shaft with friction security and freewheel.
- Round bale \emptyset 120 to 200 cm. / Square bale 2.60 m.
- Tractor pressure: 180 bars
- Shredder with hydraulic drive sections.
- Turbine with bolted blades
- 7 mobile flails per blade (56 in total).
- Lateral chute for mulching or spreader on the ground.
- ${\boldsymbol \cdot}$ Adjustment of the chopping capacity thanks to the 4 adjustable counter knife.
- Mulching from 5 to 7 m.
- Minimum tractor power advised: 120 hp.

TRAILED OR MOUNTED STRAW SPREADERS FOR SQUARE BALES DPC120 - DPG120 - DPA120

DREAL APPROVAL

Common features DPG120-2D et DPC120-2D

- Serial supply of the discs and distributors for the belt and shredder driving
- Supplied with a flow regulator for the advancement of the conveyor belt.
- Hitch on bar, wheels and stand.
- Minimum tractor power is 45hp for the DPC and 100hp for the DPA (lifting capacity).
- Required hydraulic capacity: 60L/min under 180 bars
- Straw regulation box.

DPC120-2D

Trailed straw spreader works by tractor hydraulics with Simple Effect plug and free return.
 DPG120-2D

• Trailed straw spreader with independent hydraulic unit tank 90 litres and flow 60 l/min drive tractor power take-off projection of the straw from 5 to 12 m depending on the type of straw.

DPA120-2D

- Mounted 3 rear points tractor power lift 100 HP
- Operates by tractor hydraulics with Simple Effect plug and free return.
 DPC120-2DE, DPG120-2DE ET DPA120-2DE

Electric control with disk flow regulation kit..

SELF-PROPELLED STRAW SPREADER DPCA 120

FOR BALLES THAT ARE ROUND AND SQUARE

Straw blower designed for buildings above ground.

Features

- Kubota 4-cylinder diesel engine 36.5 Kw (49hp) interim Tier V.
- 3 wheels engine-driven 400/60 R15.5.
- · Hydrostatic progress.
- ${\mbox{\ensuremath{\bullet}}}$ Working speed from 0-4km/h and 0-12km/h on the road
- Choice of cockpit direction on control.
- · Oil tank: 150L + cooler.
- Diesel tank: 80L
- · Working lights.
- \cdot Regulation of mulching width (disk) adjustable by flow regulator (mulching width from 5 to 12 m depending on the type of straw).

SEMI-MOUNTED STRAW SPREADING SILAGE CUTTERS-5,2M² DP 560

DREAL APPROVAL

DP560 HGL with hopper option

With side chute, adjustable or versatile (optional recycler) Electric control

- · Gearbox 2 speeds (270 and 540 rpm).
- · Large diameter turbine with bolted blades.
- \bullet Chain conveyor belt Ø 12 mm and removable HLE tubes.
- Indicator and regulator of progress of the conveyor belt with reverse movement
- Moving conveyor driven by hydraulic motor + gearbox reducer.
- · Double bottom cleaning hatch.
- PTO shaft with friction security and freewheel.
- Adjustable boom with articulated towbar / rear lights.
- Round bale Ø 120 to 180 cm / square bale 2.60 m. Tractor pressure: 180 bars-

DP560 HGL - DP560 HGTL - DP560 HGP

- Mechanical drive of the two shredders which ensures an optimal flow and a perfect regularity of the distribution.
- Distribution straw, hay, corn, grass wrapping short strands..

DP560 GL - DP560 GTL - DP560 GP

- Mechanical drive of the two shredders which ensures an optimal flow and a perfect regularity of the distribution.
- Distribution straw, hay, corn, grass wrapping short strands.

FARMING

DBST182

TO DISTRIBUTE HAY, STRAW, WRAPPED SILAGE BALES

Strong design with 10mm metal thickness, driving chain 3.8mm thickness adapted for round bale up to 1.80m / 750 Kg.

- · Recommended oil flow: 301/min
- Hydraulic driving belt with 2 reinforced chains ep. 3.8 mm and 16 bars in 📋 50 x 25 with 3 and 2 teeth welded 1 of 2.
- Free roller distribution side mounted on bearings with anti-winding.
- · Right distribution only for the DBST range

DBST 182

Bale feeder without loading tailgate, adjustable side flap. The DBST18SB is pre-equipped to receive a loading arm.

Possibility to add a loading tailgate (option)
Possibility to add a bottom steel plate

DBST182 - AB

Bale feeder with loading tailgate with adjustable extension 2 double action cylinders to load round bale up to 750 kg

Possibility to add a bottom steel plate

Option: Bottom steel plate

Equipement designed to last

OUR ENGAGEMENTS

REARING RANGE EQUIPMENT

SILOFARMER is recognized for offering a wide choice of equipment for the agricultural sectors: straw blower, straw blower trailers, unrollers, forestry work, as well as constructin and public works.

At SILOFARMER, we have developed **TECHNICAL EXPERTISE** in order to guarentee the maintenance of your agricultural equipment and thus certify the solidity and durability of the machines.

Your notes

Your notes

GENERALTERMS OF SALE CARTEL

january 2022

1-SCOPE OF APPLICATION: This document applies to the range of trade marks LERIN CARTEL, SILOFARMER, ROBOT-SYSTEM, HANDLING CARTEL for own product activities (design, manufacture and marketing of automated equipment and equipment turnkey concept, agricultural and industrial machinery and equipment, etc.) and CARTEL METAL SERVICE for metal processing activities (mechanical, sheet metal and boiler work, etc.).

2-GENERALITIES: All orders are subject to the present general conditions of sale. No exception or restriction may be made to our general conditions of sale unless they have been formally accepted by the CARTEL GROUP in writing. In particular, these general conditions of sale shall prevail notwithstanding any stipulations to the contrary which may appear on the buyer's purchase orders, his general conditions of purchase or any other document emanating from him. The prospectus, catalogues and any other document published by the CARTEL GROUP, the machines displayed, the accessories as well as the characteristics and information given in our documents (tariffs, advertising leaflets, notices, etc.) are non-contractual and have only indicative value.

3-ORDERS: Orders placed directly by customers by mail, fax, telephone or transmitted through representatives only bind us when they have been accepted either by written confirmation in the form of an Acknowledgement of Order or by the shipment of the goods. Changes or cancellations will only be accepted within 72 hours of receipt of the purchase order. After this period, the CARTEL GROUP reserves the right to invoice the costs resulting from the partial or total performance of the order. The business handled by our representatives, our distributors, or any other business intermediary only binds us after written confirmation from the CARTEL GROUP. The benefit of the order is strictly personal to the buyer and may not be transferred under any circumstances unless expressly agreed by the CARTEL GROUP. By order, we mean any order concerning our goods appearing on our tariffs, and accepted by our group, accompanied by the payment of the deposit possibly provided on the order form.

4-DELIVERIES, DELAYS, CLAIMS: Delivery times are given as an indication, delays cannot give rise to damages. Our contractual obligations are suspended as of right and without formalities and our liability is released in case of occurrence of events considered as accidental or force majeure such as: total or partial strikes, lock-out, accident or delay in manufacture, fire, flood or accidental occurrence, equipment breakage (in our workshops or at our suppliers), war, riot, requisition, act of the prince, authoritarian reduction of imports, defects or difficulties in the supply of raw materials, delays in the transport of goods, and in the event of any occurrence of circumstances beyond our control and that of our suppliers, intervening after the conclusion of the contract and preventing the performance under normal conditions.

If shipping provisions are changed, we reserve the right to charge any add itional charges that may result. Special packaging, or express shipments requested by the consignee remain entirely at the recipient's expense.

The goods travel at the consignee's own risks regardless of the terms of delivery, unless agreed upon at the time of the order. In all cases, it is up to the consignee to raise, in the legal forms and deadlines, with the carrier, any complaint concerning the conformity of the delivery and in particular the condition or the number of materials received and to send us a copy of this complaint. Failure to follow this procedure releases our responsibility.

Thus, in case of non-compliance and dispute on the quality of our goods, the buyer or his agent will be required to indicate any disorder on the delivery note and to confirm them by registered letter with acknowledgement of receipt to the carrier within a maximum period of three days after receipt in accordance with article L.133-3 of the French Commercial Code. The buyer shall likewise inform the CARTEL GROUP. After this period, the customer will be deemed to have expressly accepted the goods in their condition and any claim on their conformity will be declared inadmissible, notwithstanding the possible existence of reservations on the delivery order or receipt.

5-PRICE: Our prices are established ex-works excluding unloading costs, stowage, transport, delivery.

Our rate applies to all our customers on the same date. This can be revised upwards during the year, after prior information from our clients. Any price changes will automatically apply to any order received as of the date indicated on the new price.

6-TERMS OF PAYMENT: All sales are considered to be processed and payable to CHANVERRIE, without possible derogation whatever the method of payment, the place of promise and delivery.

Our invoices are payable in cash regardless of the method of payment with the exception of payments by LCR for which a delay of 30 days invoice date is allowed. The CARTEL GROUP does not grant discounts.

Non-payment of an invoice on its due date automatically incurs interest on the basis of three times the legal interest rate (not subject to VAT) from the due date; its recovery by litigation entails the application of a penal clause at the rate of 15% (penal clauses not subject to VAT).

We reserve the right to require:

- a) cash payment prior to delivery if justified by the financial circumstances of the purchaser.
- b) in the event of a delay or default in payment, the immediate payment of invoices not yet due and the advance payment of all orders in the course of execution or the cancellation of these orders, as well as the resolution of orders already delivered under the conditions of article 7.

The payment of the amounts due after the eligibility date appearing on the invoice will automatically increase the amount of the latter of the flat-rate compensation of €40 provided for in article L441-6 paragraph 12 of the French Commercial Code, the amount of which is fixed by decree no. 2012-1115 of 02 October 2012 (Article D441-5 of the French Commercial Code).

In the event of a regulatory change in the amount of this lump sum payment, the new amount will automatically be substituted for the amount shown in these general terms and conditions of sale or settlement.

The application as of right of this flat-rate compensation shall not preclude the application of a supplementary increase in the amount due in respect of all the sums which have been disclosed, whatever the nature thereof, for the recovery of the claim.

7-RETENTION OF TITLE (Articles L.624 et seq. of the French Commercial Code): The transfer of ownership of the sold equipment is subject to full payment of its price by the buyer.

Payment does not include the delivery of bills of exchange or other securities creating an obligation to pay.

By express agreement, the risks are transferred to the buyer as soon as they leave our factories or are made available in our factory, in case of additional assembly order. Consequently, he must have insurance covering the risks of damage of the goods in his possession.

In the event of non-payment at the due date, we can demand the return of the goods without formality and without any formality. In case of legal settlement or liquidation of the buyer's property, the claim of the material may be exercised under the legal conditions.

In the absence of payment by the buyer at the agreed term, we reserve the right to invoke the termination of the sale as of right upon sending a formal notice to this effect. Any repatriation costs will be borne by the debtor.

8-WARRANTY: Our equipment is guaranteed 24 months from the date of availability against any manufacturing defect or material defect. For products studied, produced and marketed by the CARTEL GROUP and for any other product of the brand CARTEL METAL SERVICE a six-month warranty will be applied. The warranty is limited to the replacement or repair in our workshops of the part found defective. The warranty request must be made in writing specifying the references, the serial number of the device and must be accompanied by the user's purchase invoice.

Consignments of parts under guarantee are carried out at the expense of the CARTEL GROUP.

The shipping and packing costs of parts sent or requested in return to our factories are the responsibility of the shipper. Labour for parts disassembly and reassembly will not be supported by the CARTEL GROUP unless we agree in writing in advance. Parts or accessories of external origin and bearing a own mark are included in our warranty only to the extent of the guarantees granted by the suppliers of these parts. The CARTEL GROUP does not assume the warranties of combustion engines mounted on cement mixers, only the services approved by the engine manufacturers are entitled to meet this demand.

The CARTEL GROUP draws the customer's attention to the fact that the use of these materials must be carried out in accordance with its requirements and in accordance with the rules of the customer's profession. The warranty does not apply to replacements or repairs resulting from normal wear and tear of the equipment, misuse of the equipment, in particular by negligent, imprudent, abusive or abnormal use, monitoring or maintenance defects, broken glass accessories, plastic, enamel and rubber, etc. as well as the consequences of an accident or disaster such as explosion, fire, climatic incidents (storm, lightning, frost, flood, cyclone, etc.), riot, theft. Our warranty disappears immediately and completely if the customer modifies or has repaired without our agreement the supplied material. Repair, modification or replacement of parts during the warranty period shall not have the effect of extending the warranty period of the equipment. We do not accept any return of material without our prior consent.

However, the contractual guarantee in no case implies the possibility of a claim for damages or compensation.

9-REPAIRS: If the buyer wishes to have a repair carried out outside the warranty assumptions, the equipment to be repaired must be shipped in postage paid. The repair will only be done after acceptance of the refurbishment quote. The equipment will be invoiced for re-shipment in addition to the repair.

10-EEA PRODUCER DECLARATION

The unique identifier FR004699_05BEXO attesting to the registration in the register of producers of the EEA sector, pursuant to article L.541-10-13 of the Environment Code was assigned by ADEME to the CARTEL GROUP. This identifier attests to its compliance with its obligation to register in the register of producers of Electrical and Electronic Equipment and the completion of its declarations of placing on the market with ecosystem.

11-TERRITORIALJURISDICTION: These general conditions of sale are subject to French law. In the event of a dispute relating in particular to the validity, interpretation, performance or termination of the sales contract, the Commercial Court of LA ROCHE SUR YON will be the only competent authority, even in the case of interim measures, warranty, multiple defendants and notwithstanding any clause to the contrary.
